Re: Fuel Surcharge Increase and NY Rate Increase

To: All Our Valued Customers

As your transportation partner, we make every effort to provide you with the best possible service at mutually beneficial pricing. The recent surge in fuel prices along with consistent increases with tolls has forced us to increase our fuel surcharge and our rates for cartage in NY.

Effective Monday, March 3, 2014 our new fuel surcharge will be 30% and our rate increase for the NY area will be implemented as well. Please refer to our rates on the website to reflect the new rates.

We regret having to increase the surcharge and rates, however, we are sure you can appreciate the economics of the situation and we trust you will understand our position.

All further updates can be found on our website @: [www.cartagebydirect.com](http://www.cartagebydirect.com)

Sincerely Your's,

The Staff at Cartage By Direct, Inc.
